NEW RESIDENTS:

New Texas residents can legally drive with a valid, unexpired driver license from another U.S. state, U.S. territory, Canadian province, or qualifying country for up to 90 days after moving to Texas.

Prior to the end of the 90 day grace period, a new Texas resident must apply for a Texas license in person at any driver license office to continue to drive legally. When applying for the new Texas license the individual must surrender any unexpired driver license in their possession.

TWO STEPS, ONE STICKER

1. Inspection Stickers

Vehicles are no longer required to have an inspection sticker on the vehicle's windshield. The inspection sticker has been replaced by the Vehicle Inspection Report (VIR). Keep the VIR handy as it may need to be shown at the time of registration.

2. Vehicle Registration

Before a vehicle may be registered or its registration renewed, DMV or a county assessor-collector must verify that the vehicle has passed the required inspection, as indicated in the DPS inspection database. If the database information is not available, the vehicle owner may present a passing Vehicle Inspection Report (VIR) issued for the vehicle, in order to complete the registration process. The VIR is not required to be carried for potential display to a peace officer except as noted for commercial vehicles.

Texas residents who own a motor vehicle are legally required to renew their vehicle registration annually. Vehicles may be registered in person, by mail, or online at txdmv.gov (*participating counties only*).

You must have proof of current liability insurance to be able to register or renew the registration of any vehicle in the state of Texas.

New residents have 30 days after establishing residency to register their vehicles with the state of Texas. Vehicle registration and renewals are provided by your county tax office(s) or approved substations.
